# BREACH BETWEEN FRANCE AND ENGLAND WIDENS

## UPPER SILESIA ISSUE IS STILL TROUBLE POINT

England Protests Delay In Meeting Of Supreme Council.  
**BRIAND OBDURATE**  
Premier Reiterates View That Council Shall Not Meet Until August

Paris, July 22.—The breach between Great Britain and France over Upper Silesia was emphasized today when Premier Briand in a speech to the council of ministers said positively that the supreme council would not meet to take up the Silesian issues until the end of August or the beginning of September. Great Britain has been protesting against further delay and demanding an immediate meeting of the supreme council.

The premier said that France will not relinquish the view that the supreme council should not meet until the commission of experts has worked out a preliminary solution and fixed the new Silesian frontiers.

President Millerand of France presided at the meeting. This was the first time since the administration of President Fallieres that a president of the republic had presided at a ministerial council.

In view of the urgency of the international crisis the meeting was not held in Paris. The ministers journeyed to the summer home of the president at Rambouillet in order to give them an opportunity to canvass the situation with the president.

Premier Briand, it was understood took up most of the morning addressing the ministers. He emphasized the unshakable determination of the government to hold to its present viewpoint despite any increased opposition from London.

In the meantime the French press points out the dangers in Upper Silesia and supports the French view that more troops should be sent to prevent German aggressions which might result in war between Poland and Germany.

Fears are expressed in some circles that if the allies allow war to break out Russia might take advantage of her opportunity to renew her attack on Poland. Russia has already made formal charges against Poland that the treaty of Riga has been violated by the Poles.

## HENRY COX DIES LATE ON THURSDAY

Henry Cox, 52, died at his home at Gladstone, 16 miles east of Xenia, at 5 o'clock, Thursday afternoon. He had been in poor health for several weeks and his death resulted from heart failure.

Mr. Cox had driven the school wagon in Ross township for a number of years and was a well known and highly respected citizen. He was a member of the Gladstone Church of Christ. Mrs. Cox preceded her husband in death three years, but four children survive. They are Miss Goldie Cox, a teacher in the schools near Springfield; Mrs. Florence Leslie of near Jamestown, and Misses Hazel and Dorothy Fay Cox at home. Two grandchildren also survive.

Funeral services will be held Sunday afternoon at 1:30 o'clock at the Gladstone Church of Christ in charge of the Rev. J. F. Gordon of Jamestown. Interment will be made at Milledgeville.

## MALE VAMPS SCORED BY FRENCH SENATORS

Paris, July 22.—Senator Lamarzelle, the "Dr. Crafts of France," today asked the senatorial commission on public morals for the introduction of a law to clear the boulevards of male flirts. He declared that the principal streets are full of men every night seeking to make chance acquaintances with women. He urged a heavy penalty for the male vamps, saying women should have the same protection as men.

## FIRE HITS OCEAN CITY

Ocean City, N. J., July 22.—Nine stores were destroyed by fire here early today. The blaze was discovered shortly after 3 a. m. Sections of the board walk nearby were also destroyed.

## HUNT WILD BOAR ON CITY STREETS

Columbus, O., July 22.—Hunting the wild boar was a sport once reserved to those of noble blood, but Columbus police took up the ancient sport, and what is more killed their game after five or six shots had been fired at the animal. Inasmuch as several engaged in the chase, it is not known who fired the fatal charge.

The boar escaped early this morning from a circus, and was first seen at Rich and Gift streets, where chased women and children into their homes. It then started after a group of small boys who attempted to lasso it with a rope. Their attempts failed and police were called.

## IRISH LEADERS TO PASS UPON PEACE PROGRAM

DeValera Returns to Ireland to Put Offer Up to Parliament  
**PREDICTS SUCCESS**  
President Of Irish Republic Says He Has Confidence in Outcome

London, July 22.—Eamonn DeValera, president of the Irish republic returned to Ireland today to put the English government's peace offer directly up to the Dail Eireann (Sinn Fein parliament).

"Though the immediate future is uncertain we have perfect confidence in the ultimate success of our cause," said DeValera before departing for Dublin.

The "Irish president" got an enthusiastic send off at the railway station. There was a large crowd of friends and sympathizers as well as many who were present out of curiosity. Some of the Irishmen in the crowd carried Sinn Fein flags.

The whole republican peace delegation returned with the exception of Art O'Brien head of the Irish self determination league, whose duties as "Sinn Fein ambassador to London" made his presence here necessary.

Despite the temporary suspension of peace negotiations the Irish armistice continues in effect. It is reported however that the general stage of the Irish republican army is taking steps to renew guerrilla warfare if the negotiations collapse entirely.

## OFFICER DENIES BERGDOLL CHARGES

Washington, July 22.—Sweeping denial of all charges that he had received any money from the Bergdoll family or sought any money while he was acting as counsel for Grover Cleveland Bergdoll, Philadelphia draft dodger, was made today by Major Bruce Campbell, before the house committee investigating the escape of Bergdoll.

Campbell flatly denied the charge made by Mrs. Emma Bergdoll, mother of the slacker, that he had sought \$100,000 for "higher ups" in Washington. He also made categorical denial of further statements by Mrs. Bergdoll indicating that the officer had received \$5,000 from Grover.

## SMALL NATIONS GIVEN ASSURANCE

Washington, July 22.—The United States has given small nations assurance that their rights will be guarded and protected during the discussion of far eastern policies in President Harding's disarmament conference, it was learned at the state department today.

The United States has sent communications to Belgium, the Netherlands and Portugal. It was learned, which state decisively that this nation has no disposition to disregard the interests of these smaller nations in the far east, during the discussions which will be taken up at the parley of the larger powers.

## DEMAND REMOVAL OF ADMIRAL SIMS

Detroit, July 22.—The removal of Admiral Sims as head of the naval war college was demanded of Secretary of the Navy Denby in a resolution adopted today by the convention of the Ancient Order of Hibernians in session here. The resolution characterized the admiral as one "whose notorious pro-English tendencies were such that he was no longer an American citizen."

## HAVOC CREATED BY PITTSBURGH CONVICTS

Incendiary fires, which destroyed a dozen buildings of the Western Penitentiary, were accompanied by rioting by nearly all of the prisoners. Fourteen persons were injured in what at one time promised to be the greatest wholesale jail delivery the country has ever known. Only the alertness of the guards in refusing to be tricked by a ruse, prevented the convicts' plots from being successful. For more than two hours guards and police battled with the convicts. So far as known not a convict escaped. For several weeks trouble had been brewing between the Pittsburgh Penitentiary convicts and a batch of convicts brought from the Eastern Penitentiary, in Philadelphia. The photograph shows the South Wall Sentry Tower fired by embers from the burning prison buildings.

## Case of State Against Ball Players Now Near Close

Sensation Sprung By Burns Who Alleges players and Not Gamblers Proposed Selling Out of World's Series in 1919—Attorneys Jubilant.

Chicago, July 22.—The case of the state against the "Black Sox" and gamblers indicted for conspiracy to throw the 1919 world's series was believed to be near its close today. With the conclusion of the testimony of "Bijl" Burns, former big league pitcher and star witness for the state, it was believed that only a few more witnesses would be called to testify for the prosecution.

The big fight still looming for the state is the battle for the admission as evidence of the confessions of Eddie Cicotte, Claude Williams and Joe Jackson before the grand jury. It is not known definitely just when this issue will be injected into the trial.

## GOVERNOR SMALL PREPARED TO CARRY CASE INVOLVING ARREST INTO COURT

Springfield, Ill., July 22.—A bitter battle to the finish between the judicial and executive branches of the Illinois state government seemed imminent this afternoon when circuit court Judge Smith refused to restrain the issuance of warrants for the arrest of Gov. Len Small on charges involving the misuse of state interest funds.

Springfield, Ill., July 22.—Attorneys for Governor Len Small were prepared to go into court today and argue that the chief executive of the state under the constitution and his oath of office is exempt from arrest and trial on criminal charge.

Attorneys on behalf of the state were prepared to argue that the governor is not immune from arrest and prosecution on charges of conspiracy, embezzlement and confidence game upon which he, together with Lieut. Gov. Fred F. Sterling and Vernon S. Curtis was indicted by a Sangamon county grand jury.

The indictments involve alleged misappropriation of interest money from the state funds.

It was authoritatively learned early today that Gov. Small is prepared to resist arrest regardless of the ruling of the court by calling out state troops and putting Springfield under martial law.

## STEAMSHIP ADRIAT IN DENSE FOG AFTER EXPLOSION IN WHICH SEVERAL INJURED

San Francisco, July 22.—The steamship Adriatic, which left here last night for Seattle, is adrift in a dense fog 12 miles north of the San Francisco lightship, according to a radio message received here early today. An explosion of her main feed pipe disabled the vessel. Several members of the engine room crew were scalded by the explosion.

## CLEVELAND OBSERVES 125TH ANNIVERSARY

Cleveland, O., July 22.—Cleveland, 125 years old today, will celebrate its anniversary with a nine days festival. Today "General Moses Cleveland and the city's founders," will land from a yacht near the mouth of the Cuyahoga river and formerly open the city's celebration. The city is decked with flags.

# PROPOSE PRELIMINARY CONFERENCE TO WORK OUT FAR EAST PROBLEMS

## Losses of Building Interests Run Into Billions of Dollars

Hoover Committee on Elimination of Waste in Industry Reports Staggering Amount Lost Due to Waste, Unemployment, High Cost of Construction.

New York, July 22.—Waste, unemployment, accidents, high cost of construction and a score of other evils are causing losses in the building industry of the country running into billions of dollars, according to the report of the Hoover committee on elimination of waste in industry of the American engineering council made public today.

Half a billion dollars a year in wages is being lost through unemployment.

Accidents cost the building industry \$120,000,000.

Loss through duplication of estimates, designs and bidding runs into millions.

Strikes cause an estimated waste of 3,000,000 working days a year.

Chief sources of waste are irregular employment, inefficient management and wasteful labor regulations.

These are but a few of the discoveries of the committee which was appointed by Herbert Hoover. Its investigations cover the entire country. A hopeful sign says the report is the recent action of builders and workmen in investigating causes and remedies for irregular employment and the recognition of the necessity for increased production.

Dealing with the question of irregular employment which in the building industry more than any other causes enormous loss, the committee reports the instance of a Philadelphia workman, who in the course of five and one half years worked for seventy different contractors and was hired 108 times.

Building with the trades and common labor incidental to it is the second industry of the United States the

## CHARGES ARMY OFFICER HUSBAND WITH DESERTION

Mrs. Ethel Timothy Hayes, wife of Major Philip Hayes, U. S. A., photographed while leaving the New York District Attorney's office after filing a complaint charging her husband with desertion. Major Hayes, who is stationed at West Point, asserts that an annulment of the marriage had been granted by the Supreme Court of Cook County, Ill., July 11 on the ground of bigamy. Mrs. Hayes claims she was not notified in time to contest the annulment suit or offer a defense. She says Major Hayes deserted her in New York, July 4. She married the army officer in Chicago three and a half years ago.

## JIM BARNES LEADS FAST FIELD IN GOLF TOURNEY IN EAST

Four Stroke Advantage Maintained By Pelham Professional.

Columbia Country Club, Chevy Chase, Md., July 22.—Jim Barnes, with a four stroke lead over the fast field, set out today to win the national open golf championship. Right behind Barnes were a number of the world's greatest golfers, eager to catch the Pelham professional and lift the title for themselves.

Barnes led Charles R. Murry of Montreal, former winner of the Canadian open and Fred McLeod, the Home Club professional by four shots when the third round opened.

Dobby Jones, the Atlanta amateur, was three strokes behind.

The British challenger was still alive, for George Duncan was but six shots behind Barnes. Abe Mitchell, Duncan's partner withdrew from the championship yesterday.

Joe Kirkwood of Australia the other dangerous foreign invader, was too far behind to have a chance to win. His total for the first two rounds was 15, twelve shots behind Barnes.

Weather conditions continued to favor the players and spectators. The air was clear and the temperature low enough for comfort.

## POLES WILL SEND EIGHT DIVISIONS TO UPPER SILESIA

French Aid Polish Forces In Establishing Civil Administration.

Berlin, July 22.—The Poles are preparing to send eight divisions of regular troops into Upper Silesia to establish headquarters at Rybnik, Pless, Kattowitz and Lublinitz and over-run practically the entire province, said a Breslau dispatch to the Deutsche Allgemeine Zeitung today.

The Poles and French commissioners are reported to be arranging for the establishing of Polish civil administration throughout Upper Silesia.

The Poles and French are charged with spying upon English activities. General Leronde, French chief of the interallied high commission has ordered the English to limit their support of the Germans in Upper Silesia, the Breslau dispatch added.

## EMBEZZLEMENT CHARGED.

Cleveland, O., July 22.—A. G. Baehr, assistant general manager of the Szadacs Printing and Publishing Company was in jail, facing a charge of embezzling \$13,000 from the firm. Auditors at work on the books declared the loss may amount to between \$30,000 and \$50,000.

## PROPOSAL MADE U. S. BY BRITISH FOREIGN CHIEF

Curzon Suggests Conference of Ambassadors of Pacific Powers.

## MEET IN LONDON

Smuts Looms Large as Probable Dominant Figure at Washington.

London, July 22.—Marquis Curzon, British foreign secretary, has proposed to the United States an immediate conference of the ambassadors of the Pacific powers in London to work out the preliminary lines of a settlement of far east problems, it was learned this afternoon. The proposal was made to George Harvey, the American ambassador at a conference at the foreign office late Thursday.

Marquis Curzon informed Ambassador Harvey that Premier Hughes of Australia insists upon direct Australian participation in President

## HARDING TO STAY IN U. S.

London, July 22.—Ambassador Harvey has assured Premier Lloyd George that President Harding does not desire to come to London for any part in the negotiations of the Pacific conference. From a reliable source it is learned that during a conversation with Ambassador Harvey, the premier asked: "Wouldn't President Harding like to come to London?" Col. Harvey replied in the negative and the subject was dropped.

Harding's proposed conference in Washington. In view of this demand the foreign secretary suggested the ambassadors council which would be in session while the British dominion premiers are meeting here.

Premier Lloyd George met the dominion premiers today to discuss plans for the Washington conference.

It was stated at the foreign office that no reply has yet been received at Marquis Curzon's proposal for a conference of ambassadors in this city at once.

General Jan Christian Smuts, premier of South Africa who played a dominant role in the Irish peace negotiations promises to be equally dominant in the British councils at the disarmament conference in Washington.

General Smuts today cancelled his return passage to South Africa, July 29 and is seriously considering a trip to the United States in a semi-official capacity.

Many messages have been received by General Smuts from South Africa urging him to go to the United States before returning home and it is learned also that British officials have discussed with the South African statesmen the advisability of a trip to Washington in the interests of the British empire.

In any event it is certain that General Smuts will attend the disarmament conference in London before the autumn. He does not go to America before the autumn.

The International News Service was assured by reliable authority that there is no possibility of a preliminary conference in London before the Washington conference.

Following the conference between George Harvey, the American ambassador and Marquis Curzon the foreign secretary, Thursday evening, Manchester Guardian printed a report today that Washington has been sounded as to whether President Harding would come to London for a preliminary Pacific conference.

An invitation to America to send delegates here for a preliminary meeting would be almost a counter proposal to President Harding's invitation to a conference in Washington.

## MURDERS HIS WIFE IN FIT OF ANGER

Buffalo, July 22.—One of the most unusual murders in the annals of the local police occurred here when John Verosky, 27, in a fit of jealous rage, according to the police tossed the contents of the one-half pint bottle filled with a solution of carbolic acid and muriatic acid into his estranged wife's face while she was at work in the Thompson Beauty Parlors.

Mrs. Barbara Verosky, 23, the wife, died at the emergency hospital. Medical Examiner Danzer said death had undoubtedly been caused by some of the poison which had been thrown into her mouth. Her face was horribly disfigured.

Verosky was charged with murder.

## SEARCH FOR BODY.

Cleveland, O., July 22.—Search was made by life guards for the body of William Egeland, aged 10, who was caught in an under tow at Edgewater Park and drowned.

## FORMER RESIDENT OF SPRINGFIELD IS DEAD BY SUICIDE

Springfield, July 22.—Hugh W. Fullerton, 54, mine operator and until recently a resident of Springfield, shot and killed himself Thursday night in his room in a hotel in Washington D. C.

Dispatches received in Springfield gave no cause for his act, but despondency over his failing eyesight is thought to be the cause. Mrs. Fullerton, in an adjoining room, heard the shot and found her husband lying across the bed. He was still alive when found, and was removed to a hospital. The bullet had entered the right temple, and passed through Fullerton's head, emerging from the left temple. An operation performed immediately at the hospital, proved unsuccessful and Fullerton died on the operating table.

Fullerton, with his wife and daughter Dorothy, had made their home in Washington only a short time. He was engaged as attorney for western mining interests and appeared several times before congressional committees representing the interests. Recently the family had contemplated a tour of Europe where Hugh S. Fullerton, a son, is stationed as a member of the United States diplomatic service. Mrs. Fullerton is a sister of Mrs. E. S. Kelly of Whitehall, Yellow Springs.

## POTATO CROP IS DAMAGED IS FEAR

Springfield, July 22.—The extremely hot weather has resulted in serious damage to the Clark county potato crop, according to County Agent E. W. Hawkins. More than fifty percent of the potato crop has been destroyed, Mr. Hawkins says, and unless rain comes within the next week, the crop will be extensively damaged.

In different localities, farmers have reported their entire crop burned out. Other farmers report that their crops will not even yield as much seed as was sown.

The corn crop in Clark County is reported to be promising and with a little rain there will be a large yield. Wheat was cut short, more than 30 per cent of the crop being dried out, it is estimated.

## MEDICAL HELP IS SENT INTO RUSSIA

Berlin, July 22.—The German government is sending physicians and medicines into Russia for relief of the plague sufferers, it was announced today.

An unconfirmed report came out of Russia on Thursday night that more than a quarter of a million of Russians are dying every twenty-four hours from cholera, typhus and famine. The whole southeastern part of Russia is reported in the grip of the plague which is spreading at an alarming rate owing to the lack of preventives. Maxim Gorky, the Russian writer has cabled to Anatole France, Ger-gard Hauptmann and Blasco Ibanez asking them to appeal for Russian relief.

## FRIENDS TO HOLD YEARLY MEETING

Wilmington, July 22.—Wilmington Yearly meeting of Friends will be held in this city August 15 to 21. Friends from all parts of Ohio and other states will be here for the meeting.

The first day—August 15—will be given over to the Ministry and Oversight meeting and the Yearly meeting proper will open on the following day.

Jefferson Ford, well-known missionary in Africa will speak on foreign missions. Other speakers will be Prof. Harlow Lindley of Earlham College and S. Edgar Nicholson, former editor of the American Friend.

## START PROBE INTO DEATH OF WOMAN

Leesburg, July 22.—A veil of mystery surrounds the death of Miss Alice Williams, aged 30, who was found dead in a spring on the farm of her uncle, Arthur Johnson, near Leesburg, Monday.

Several bruises were found on her face, it said, and an investigation of her death is being made.

## SAMUEL DEACON CALLED BY DEATH

Samuel Deacon well known citizen of this city, and for many years employed as carpenter on the Pennsylvania lines, passed away at his home on ... street, Thursday evening at 10 o'clock, after an illness of over 18 months, during which he had been a sufferer from heart trouble.

Mr. Deacon was employed as carpenter on the Pennsylvania system for over 36 years, having received his retirement from that service seven years ago. He was born in Trol-bridge, England, May 6, 1844, being then in his 77th year at the time of his death. He was one of a family of five children, a brother, Simeon Deacon, residing in this city and four sisters, two of whom reside in England, and one sister, in Kingston, New York. Another sister, passed away in England some years ago.

Mr. Deacon's marriage to Sarah Turner, took place in 1893. His widow survives him with three children, by a former marriage, Charles Deacon, of Leesport, Indiana, Mrs. George Huston of this city and Walter Deacon of this city. A step daughter, Mrs. George Becker, resided in Lansing, Michigan.

Funeral services for Mrs. Deacon will be held at the Chapel of the Woodland cemetery, Saturday afternoon at 3:15 o'clock, fast time. Burial will be made at Woodland cemetery. Friends may call to view the remains at any time after six o'clock Friday evening.

## JOHNNY APPLESEED HONORED AT MEET

Ashland, July 22.—To commemorate the work of Johnny Appleseed, the Ohio State Horticultural society will hold its annual summer meeting at the orchard of T. E. Thornburg and Son, Ashland.

It was through this territory that Johnny Appleseed, an eccentric wanderer, distributed many thousands of appleseeds from 1811 to 1857 among the Indians and early settlers.

Trees of his planting are still in sight of the 50-acre Thornburg orchard, it is stated.

The meeting will be in charge of R. B. Cruickshank, secretary of the society, who is extension horticulturist at the Ohio State University, Columbus.

## Broke Up Housekeeping

"We had to break up housekeeping because of my wife's stomach trouble. No medicine did her any good for more than a few hours. On a visit to Oskosh a friend praised Marie's Wonderful Remedy so highly my wife tried it and she has enjoyed the best of health since taking it." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

## ORDINANCE NO. 175

To re-establish grade on Rogers Street.

Be it ordained by the City Commission of the City of Xenia, State of Ohio: City of

Section 1. That the grade on Rogers street be and the same hereby is re-established as follows:

Beginning at the intersection of the center line of Home Avenue and the center line of Rogers street elevation 929.38 thence ascending on a 1.9 per cent grade for a distance of 36.0 feet to elevation 930.06; thence ascending on a 5.98 per cent grade for a distance of 405.0 feet to the end of the existing pavement on Rogers Street and elevation 954.27. The distance between the curbs shall be 18 feet; the curb grade shall be the same as the center grade on said street; the sidewalk grade shall be 5-10 of a foot higher than the curb grade.

Section 2. That an ordinance establishing said grade, passed by the City Council on the 8th day of March, 1907, recorded in Ordinance Book B, page 376 be and the same is hereby repealed.

Section 3. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.

Passed this 15th day of July 1921.

J. Thorb Charters,

President City Commission

Attest: T. H. Zell,

Clerk of City Commission

## Among The Churches

**ST. JOHN'S CHURCH**  
Sunday School at 9:30 Standard time, W. C. St. John, Supt. Preaching at 10:30. Come and worship with us. All are welcome.

During the past week Attorney and Mrs. C. W. Whitmer have had as their guests, Mr. and Mrs. Anthony Loh, of Sandusky, Mr. and Mrs. Atkins, and Mr. and Mrs. Louis Grostrost of Van Wert, Ohio. They returned home Thursday.

Miss Anna O'Donnell, of the O. S. and S. O. Home, is enjoying her vacation, which she is spending with relatives in this city.

## GET IT AT DONGES.

Adv.

Miss Lois Brittain, of Newark, New Jersey, was the guest on Thursday and Friday of Miss Margaret Morehead, of North Detroit Street. Miss Brittain has been visiting with friends in Ohio and Chicago, and left this city Friday evening for Bellefontaine for a visit with friends.

Wanted—Young lady 21 or over for night operator. Good wages. Steady employment. Apply Springfield Xenia Telephone Co., over Orphium Theater. 7-25

Get your 1-quart "Wear-Ever" Aluminum Stew Pan now, for this offer at 29c will be withdrawn after Saturday. Regular \$1.05 value and offered through us by the manufacturers at 29c. So that you may see for your self that Aluminum Utensils are NOT all the same.

Frank B. Scott,  
No. 30 West Main St.

Wanted—Immediately, girl to keep books and work in store. Inquire in person, J. L. Webb, Sunlight Cream Station. 7-22

Army shelter tents in olive drab color. Specially priced at \$2.39. The Criterion. 7-22

Miss Anna Burke, who has been spending two weeks in this city, as the guest of Miss Rose Berry of Cincinnati avenue, returned to her home in Springfield, Friday.

Meet me Saturday at Gus Curtis'. Adv.

Xenia Lodge No. 49, F. & A. M. Special Communication, Saturday, July 25, 1925, 2:30 o'clock, p. m., first time to attend and take part in the funeral service of Brother Samuel Deacon. A full attendance is desired. By order of J. W. Gardner Sr. W. M.

For a cool place to play pool try Gus Curtis'. Adv.

Mr. and Mrs. W. M. Burrell of St. Louis, L. B. Burrell and family of Columbus, and Miss Martha Pickard of Kalamazoo, Mich., are the guests of Mr. and Mrs. Eli Burrell of East Church street.

We clean your soiled hats and save you money. Gus Curtis'. Adv.

An error occurred in yesterday's paper in the ad of the Famous Cheap Store, wherein the price of ladies' silk hose of a \$1.50 quality was quoted at two pairs for 89c. This should have been quoted simply as one pair for this price.

Get a Soda at Gus Curtis'. Adv.

Mrs. James Baxter and son returned home Thursday evening after spending several days visiting friends at Eaton, Ohio.

Don't forget to get that home made cake at Bradstreet's Grocery Saturday for your Sunday dinner.

Miss Sarah Pennington, who was operated on Monday at the McClellan Hospital, for appendicitis, is improving rapidly from the effects of the operation. Miss Pennington makes her home with her uncle and aunt, Mr. and Mrs. Walter Steops on the New Burlington pike.

L. Burgess of the Springfield pike is critically ill at his home suffering from bronchial pneumonia.

Mrs. Ha Goodwin and daughter mope, who have been the guests of relatives in this city, left for their home in Cincinnati, Friday.

W. G. Hite of East Second street, has been removed to the Grant Hospital at Columbus, and is being prepared for an operation for goitre.

Mr. and Mrs. E. E. McDonald and Mr. and Mrs. M. B. Sanals of Gary, Indiana, left Thursday, by motor for Cincinnati, after a visit with Mr. and Mrs. Lester Barnes of East Second street. The party recently returned from an eastern motor trip.

Mrs. Charles Rampanelli, of Pittsburgh, Penn., who has been the guest of her father, George Martin of S. Miami Avenue, left for Pittsburgh, Friday afternoon.

Miss Alice Whittington of Jobe Brothers Company, is enjoying a two weeks' vacation, which she is spending at Sulphur Lick Springs.

# SOCIETY

SEYER—WILLMOTT, NUPTIALS SOLEMNIZED THURSDAY

Masses of Queen Anne's lace, gladioli and lovely smilax, formed a bower for the marriage ceremony of Miss Mary Katherine Geyer, daughter of Mrs. George H. Geyer, of Toronto, Canada, which was solemnized at the First Methodist Church, at eight o'clock, Thursday evening.

The marriage of Miss Geyer to Dr. Willmott was carried out in a charming detail, and was one of the prettiest of mid-summer weddings. Several hundred friends and relatives of the couple, witnessed the ceremony which was solemnized by Rev. G. A. Scott, the bride's pastor.

Pedestals of white on either side of the altar, bore baskets of gladioli and the wild flowers combined with the smilax, offered a handsome set-

ting for the taking of the marriage vows.

A row of tall candles along the altar, with the lights of the church dimmed, were the only lights used during the ceremony, and shed a pretty glow over the scene. An American flag and a Canadian flag were effectively draped on the organ. Upon a screen which stood behind Rev. Scott, the American and English flags were also draped.

Proceeding the ceremony, Miss Ruth Tarbox, at the organ played "Largo," blending into Lohengrin wedding march, upon the entrance of the bride party into the church.

The little Misses Betty and Dorothy Kingsbury, daughters of Mr. and Mrs. Robert S. Kingsbury, led the bridal procession. Both wore dainty frocks of white, trimmed in pink and blue ribbons, and carried rose petals, which they strewed in the path of the bride and her attendants. Miss Dorothy Turrell, as maid of honor, followed, walking alone. Miss Turrell's gown was a green organdie, trimmed in dainty ruffles and she carried a bouquet of pink roses.

The bridesmaids, Miss Evelyn Willmott, of Toronto, Canada, sister of the bridegroom, and Miss Marjorie Flynn, of this city, walked together. Both wore gowns of blue and pink, respectively and carried pink roses. Mrs. Curtis B. Geyer, in a gown of lavender organdie and carrying Ophelia roses, as matron of honor, preceded the bride.

Miss Geyer, a charming and dainty girl, was very lovely in her robe of white satin and tulle, with pearl trimmings. She entered with her brother, Mr. Curtis B. Geyer, by whom she was given in marriage. Her veil of tulle, arranged in charming fashion with orange blossoms, about her face, fell to the hem of her gown. She carried a shower of bridal roses.

The bridegroom and his best man Mr. George Dods Geyer entered by the west door, and joined the minister at the altar where they awaited the bride party. During the ceremony, Miss Tarbox played "To a Wild Rose," and at the close the Mendelssohn Wedding March.

Four girls, attractive in summer gowns, acted as ushers. They were Mrs. Scott Slaughter, of London, Mrs. Richard Bennington, Miss Mildred Prugh, and Miss Florence Steele, of this city.

The bride party stopped in the vestibule of the church, at the close of the ceremony, where they received their friends.

Later at the home of Mr. and Mrs. George D. Geyer, on North Galloway Street, a company of sixty guests were received at the wedding reception. The Geyer home was decked in summer flowers. A two course wedding supper was served the guests.

A cluster of crystal vases, of sweetheart roses, formed the centerpiece of the bride's table. Covers were laid for the bride party, and Mrs. George D. Geyer, Mr. Scott Slaughter, Miss Dorothy Duncan, Mr. William Anderson and Miss Helen Oglesbee, at the bride's table.

Mr. and Mrs. Willmott left Thursday evening for their honeymoon trip, which they will spend at Toronto, and the Georgian Bay, where they plan to spend the month of August. The couple will leave September 15 on the "Empress of Russia," from Vancouver, B. C., for Chengtu, West China, where Mr. Willmott will enter the mission field. Mr. Willmott will for a time be connected with the science department of the Chengtu University the largest University in Western China. He is a graduate of the Toronto University, in engineering and spent the last year at Columbia University, New York, where the courtship between him and his bride began. Mrs. Willmott is a graduate of Xenia High School in the class of 1915 and of Ohio Wesleyan University at Delaware. During the last year she took her M. A. degree at Columbia.

Among the out-of-town guests here for the wedding were Dr. and Mrs. W. Willmott, parents of the bridegroom, and Dr. Willmott's mother, Mrs. Margaret Willmott, and the bridegroom's sister, Miss Evelyn Willmott of Toronto; Dr. Mary Dods, of St. Louis, Miss Ruth Barrett, of Delaware, Miss Dorothy Dutton, of Pueblo, Colorado, and Miss Dorothy Turrell of Cleveland.

GRANGE FESTIVAL ENJOYABLE AFFAIR. About three hundred people are estimated to have attended the festival held by the members of the Caesar Creek Grange at the Caesar Creek High School Grounds, on Thursday evening, and members of the Grange have pronounced the affair a distinct success.

Tables were arranged throughout the grounds, where the patrons of the large refreshment stand were served. Ice cream, cake, chicken sandwiches, pop and other dainties were enjoyed by the crowd. The patrons were served by the women members of the Grange.

The committee in charge of the affair was composed of Mrs. Charles Hazard, Mrs. Charles Lewis and Mrs. Albert Jones. Proceeds of the sale will go toward furthering other community social affairs of the Grange.

HENRY FORD NOW ENROUTE TO EAST

East Liverpool, O., July 22.—Henry Ford, auto manufacturer and Harvey Firestone, Sr., rubber goods manufacturer of Akron, were enroute today to Bedford Springs, Pa. their next stop enroute to Hagers-town, Md., where Thomas A. Edison will join them for their annual vacation and camping trip.

Ford was accompanied by his wife, his son, Edsel and the latter's wife, Firestone and his son and their respective wives completed the party which yesterday stopped at the Firestone homestead near here.

# HEALTH OFFICER ISSUES WARNING AGAINST TYPHOID FEVER AS ISOLATED CASES OF DISEASE APPEAR IN GREENE COUNTY

Dr. R. H. Grube, City and County Health Commissioner issued a warning against city people drinking water from wells in a statement given out, Friday, in which he said there are now six cases of typhoid fever reported to him.

"There is practically no typhoid fever in the city now," said Dr. Grube, "and what infection there is came from the country. Typhoid fever comes from bad wells and city people should be careful in visiting the wells. It is impossible to tell which well is safe for use."

"Is there any possibility of typhoid infection from the present city water," Dr. Grube was asked.

"None whatever," was his reply. "I received a report from the state laboratories on the city water this week, and the report was one of the best I have ever seen on any water," said the Health Commissioner. "The analysis showed that the city water now in use is absolutely free from any contamination. There is no

TO BREAK GROUND FOR NEW SCHOOL BUILDINGS SOON

The Industrial Construction Company of Dayton, awarded the contracts for the construction of the two new high school buildings in Xenia city will break ground next week, according to the announcement made by a member of the Board of Education, Friday morning.

Architects Pfeiffer and Mussell, man of Dayton, who drew the plans for both the new Central and the new East High Schools, have also completed plans and specifications for the construction of the new athletic field, which will be located in the rear of Central High School, ground for which was donated by F. W. Dods.

The architects have drawn plans for a complete drainage system for the grounds and also for the construction of the athletic field equipment, and detail drawings. Bid for this construction work will be received by the board of education next Thursday, it was stated by A. G. Spahr, of the board, Friday, and the work will probably be let immediately.

Sidney Richards a member of the mechanical drawing class of the Central High School graduating class of 1920 drew tentative plans for the proposed athletic field while in school, these plans being published afterward. His drawings however represented only a perspective and tentative plan of arrangement, and the Dayton architects have changed and improved them in their final drawings.

The blueprints show that a cinder track for field day track events will practically surround the field in a huge oval shape. On one side of the field this cinder-ribbon will be straightened out for the dashes, and next to the track will be the pits for board and high jumping. A baseball diamond and football gridiron, will be built within the enclosure represented by the oval track. The gridiron will be laid out so that it overlaps the outfield of the diamond, but will not be contingent to the "skinned" part of the diamond, where the grass is taken off. In the rear of "home plate," bleachers designed to accommodate 600 fans will be constructed, with benches for the opposing teams. On one side of the big athletic field, will be four tennis courts. Because of the fact that the field will be adjacent to the school building itself with its elaborately equipped gymnasium, dressing rooms and showers, no dressing rooms or buildings other than the bleachers will be necessary at the athletic field. When completed the school will have one of the best equipped athletic fields or playgrounds of any school in this section, it is believed by school officials.

# BUSSES REDUCE FARES TO 5 CENTS

Dayton, O., July 22.—In opposition to the street cars' seven cent fare, one of the cross city bus lines, started when the car strike opened July 6, today announced a nickel fare. All car lines were operating practically all branches today, although two of the five lines have not entered into agreements with the former employees on wages and arbitrations.

# HARDING TO SPEND DAY IN CAMP

Washington, July 22.—President Harding has made tentative plans to leave Washington tomorrow for Sharpsburg, Md., to spend the night in the hills as the guest of Harvey S. Firestone, Rubber manufacturer of Akron, it was learned at the White House today.

# MYSTERY SHIPS WERE WHISKEY FLEET

Washington, July 22.—Mystery ships, which have been reported off the Atlantic seaboard recently were undoubtedly part of a whiskey fleet, according to government officials.

The bureau of navigation of the department of commerce, in view of apparently well founded reports of a "floating bar" off Long Island, is now proceeding in its investigation of reports of a pirate craft on the theory that the mystery has liquor at its bottom.

need for users of city water to fear because of water-born infection."

Two cases of typhoid fever in the city at present have been traced to the country, Dr. Grube said. The patients are two children of William Pickles, Walnut street and it has been learned that they were visiting in the country, where it is believed they caught the infection from well water.

"The question is what to do with these cases," said Dr. Grube, as he scored the failure of Greene county citizens to vote for the county hospital proposed some time ago, and turned down by a vote of the people. "Many of these cases are among poor people, who are unable to furnish a trained nurse, as they should have. The people of the county had a chance to do something for these cases and they turned it down when they defeated the county hospital plan. The people of Greene County made the biggest mistake of their lives when they rejected the hospital proposition," continued Dr. Grube. "The cases should be given careful attention and care taken to prevent the spread of the disease, which is impossible when they cannot be removed to a hospital and given the proper nursing facilities."

There are now six cases of typhoid fever in the county altogether. Besides the two cases that have been reported to the Health Commissioner from this city, there are two cases at Yellow Springs, one at Spring Valley and one on the Bellbrook pike, all traced to well water, it is said. In such cases, according to Dr. Grube, all that can be done is to condemn the wells post a sign saying "this water is unfit for use," and tell the owners there is no provision for sealing the well or compelling the people to abandon it. In such cases however, if a well owner permits anyone to use water from a well that has been condemned, he is liable to damages in case typhoid fever results from such usage, Dr. Grube said.

Dr. Grube further emphasized the duty of physicians to report cases of typhoid fever. They should report to me as soon as they suspect a case as being typhoid fever and not wait for a laboratory analysis of blood to make sure of the case," he said.

The Health Commissioner said a case of illness on Home avenue said to be typhoid fever, had not yet been reported to him by the attending physician. Such a case should be reported immediately, he said, if the symptoms seem to show a possibility of the disease.

"Do you think it possible that typhoid germs are contained in the spring water near the Baltimore & Ohio depot?" Dr. Grube was asked. "Many people use the water to the exclusion of city water." "A test of that spring taken several years ago showed that the water at that time was alright," said the Health Commissioner, "but it is impossible to state now, without another analysis that it is still pure. It is possible that the water would become infected in that time."

"Furthermore," said the physician, "there is no excuse for anyone using that spring water. The city water has been proven to be perfectly pure, and containing no infection. It is good water and there is no excuse for anyone running the danger of contracting disease by using water from an untested source."

Concluding the interview, Dr. Grube urged care and attention in case of any possibility of the disease, and the immediate report to the proper officials of any suspected case, emphasizing the fact that typhoid germs multiply rapidly and with no general hospital to take care of a number of patients, a serious epidemic might result. With proper attention however, the Health Commissioner does not believe that the few cases at present existing in the county will result in a general epidemic, or any collection as serious as that which swept over Xenia three years ago.

# "PINAFORE" WILL BE PRESENTED FRIDAY AT CHAUTAUQUA

"Traitors to Justice," was the dramatic subject of the Hon. Marcus A. Kavanagh who lectured on Thursday night's program at the Redpath Chautauqua held here this week.

The lecturer held the attention of his audience throughout the enlargement of a rather difficult theme and impressed upon his hearers his ability as a public speaker well in line with the standards set by the Redpath company.

The lecture given by Mr. Kavanagh was supplemented by an exceedingly pleasing musical program by the New York Brass Choir, an organization that pleased its audiences both at the afternoon and evening audiences. Friday morning, Mr. Sallie, the morning lecturer, talked on "The spirit of American Literature," and on the afternoon program another lecture "Success With Ease," was given by Geoffrey E. Morgan.

The presentation of the delightful and apparently eternally popular opera, "H. M. S. Pinafore," Friday evening is expected to attract one of the largest crowds of Chautauqua week. Gilbert and Sullivan's large company of New York players with strict adherence to its beautiful lines and music, and its costuming and scenic effects. The piece is considered by many to be the premier event of the week.

There will be no morning lecture, Saturday, but Saturday afternoon Dr. Stephen A. Loyd will lecture. In the evening Laurant and Company will present a spectacular program of magic and music.

# AUTO PITCHES INTO DITCH WHEN STRUCK BY PASSING CAR

C. M. Boyd, 724 Lindsay building Dayton, sustained an injury to his left hand, but his stenographer, Miss O'Connor, of Dayton, escaped injury when the automobile in which they were riding on the Dayton and Xenia pike, near the Greene county Children's Home was struck and forced into the ditch by a machine driven by a man who did not stop after the accident, and whose name was not learned, Thursday afternoon at 12:20 o'clock.

Boyd was driving toward this city on his way to Springfield, when the second machine approached from the rear. Boyd told police he pulled his machine to the side of the road to permit the second car to pass, but that in pulling back into the middle of the road, the passing machine cut off too short, striking the fender of Boyd's machine. The car careened into the ditch, struck a telephone pole and broke it off. The machine, which was hauled into the Fred Balmer garage was demolished.

According to Boyd the machine that caused the damage was a green Buick touring car, driven by a man in uniform who was accompanied by a woman. The machine did not stop, but continued on toward this city. Officials from the police department and sheriff's office conducted a search for the machine, Thursday evening. Boyd and Miss O'Connor continued to Springfield by rail and returned through this city at six o'clock.

# FAIL TO PLAY OFF TIES IN TOURNEY

Because one of the players tied for position in the handicap golf tournament held at the Country Club, Wednesday, could not play, Thursday evening, the final awards have not yet been made.

Three players are tied for first position, the net scores of A. L. Regan, Roy Ary and C. H. Little in the Wednesday tourney, being 34. Two other players, F. W. Chew and A. B. Rowland, with net scores of 36, are tied for second position.

Louis Brandenburg club professional, who conducted the tournament, said that an effort would be made to have the ties played off Friday afternoon after which the prize awards will be made.

# TEACHES IN SUMMER TERM OF LINCOLN MEMORIAL SCHOOL

Miss Letitia Dillencourt has returned to this city after a delightful experience teaching college English during the summer term of Lincoln Memorial University, near Cumberland Gap, Tenn.

Before her return Miss Dillencourt was given a farewell reception by the students, and the Dean of Women entertained the members of the faculty, also in her honor.

Miss Dillencourt stopped for a few days' visit with the family of her brother at Hyde Park, Cincinnati, and her little niece, Jane Louise returned with her for a visit.

# PEABODY SAYS HE WAS DISCOURAGED

Akron Man Had Suffered Five Years Without Relief Before Taking Tanlac.

"I don't know what it is but there is something about this Tanlac that does the work," said Harry Peabody, 1047 Pitkin Ave., Akron, Ohio, a well known employee of the B. F. Goodrich Co.

"I never heard of anybody who suffered with their stomach worse than I did for five years before I got Tanlac. I had to live on a light diet, couldn't eat anything solid, even then I suffered misery from indigestion. I got so the very sight of food made me sick and I actually dreaded to go to the table. I never could eat any breakfast and was afraid to eat supper because I suffered so I could not sleep and would lay awake most of the night. I tried everything I could hear tell of, but nothing seemed to do me any good and I became very very blue and discouraged."

"I certainly am glad I got Tanlac, for it has done me so much good I don't feel like the same man. My appetite is so keen it is almost impossible for me to get enough to eat and my stomach is in such a good condition I haven't been able to find anything I couldn't eat. I enjoy my breakfast now and can eat a heavy supper and go to bed and sleep like a log. I haven't a pain or ache and feel fine all over. People who suffer as I did will certainly do well to give Tanlac a trial."

Tanlac is sold in Xenia by Sayre & Hemphill and by leading druggists everywhere.

Supt. Come and bring the children. 7:30 p. m. preaching. You are cordially invited to attend this home-like church. Don't forget the big moonlight picnic on the church lawn, Saturday July 25th from 6 o'clock until 11:30 p. m. Come and bring your friends.

Mr. Silas Bundy, son of Mrs. Martha Bundy, East Market Street, is spending a few days in the city.

Mr. James H. Harris spent Thursday in Wilmington on a business trip.

Mr. Robert Braxton spent Thursday in Xenia. He is attending school at the Ohio State University at Columbus.

St. John A. M. E. Church. Rev. P. A. Nichols, pastor. Preaching at 10:45. Good music by choir. Bible League, 7:30 regular evening service.

There will be a lawn fete on the

lawn next to Mr. Sumner's Grocery tonight. The public is cordially invited.

The Xenia All Stars will play the Middletown Amicos Sunday at Dickerson park. The All Stars have won two games from the Amicos. They will be strengthened for Sunday's game.

The Western Union Sunday School Convention in Springfield was a splendid success. The program was fine. Next year will be the 50th anniversary of this convention and will be celebrated at the Union Baptist Church in Cincinnati with appropriate ceremonies. All officers were elected for another year, headed by Mr. George I. Gaines as president. The delegates from Xenia were Mrs. M. E. Kendricks, Mrs. Jessie Roark and Miss Viola Gaines from the Zion Baptist Sunday School.

## ENCOURAGE THE BOY IN THE DIRECTION HE SHOWS TALENT.

Bion T. Arnold, the famous consulting engineer, when asked if he could explain the process of achievement, replied with this story:

"Several years ago a young boy came to work for me. His father, who was a friend of mine and well-to-do, had asked me to place the boy, as he seemed to want to be an engineer. I started him in the blue-print department, where most of our cubs get their first training. After a week I asked the chief draftsman how he was doing.

"Oh, Mr. Arnold," was the reply, 'he is not doing well. He does not do his work.'

"I told him to warn the boy, and to give him another trial. At the end of a week I asked again about him. The reply was the same as before.

"Warn him once more," I directed, 'and tell him that if he does not do better, you'll have to let him go.'

"The following week passed and the young man himself blustered into my office. 'Mr. Arnold,' said he, 'Mr. —' naming the chief draftsman, 'says I'm fired.'

"What seems to be the trouble?" I asked.

"I don't know," he answered.

"Now, my young friend," I said to him, 'think a minute.

Don't you really know what the trouble is? I do. I believe you thought you could get by, simply because I knew your father. I told the chief draftsman to warn you, and he did. I told him to let you go if you did not do better. I understand that you did not do the work, and that you were a disturbing influence in the department. Evidently you don't really care about engineering.'

"Well, Mr. Arnold," he replied, 'I don't want to be a blue-printer. I want to be a consulting engineer!'

"There are two points to this little story. In the first place, this young man did not really wish to be a consulting engineer, or any kind of an engineer. He merely thought he did, because he saw me sitting in an office doing something that he thought he would like to do, without really knowing what I did.

"In the second place, he wanted his chop without paying the butcher; he wanted a result without taking the trouble to work for it. If he had really wanted to be an engineer he would have worked days, nights, and Sundays to become an engineer. His plans would have been running through his head all the time. He would have worked as a blue-printer, a mechanic and a designer. He would have studied and made things.

"That was proved very nicely in his case, because later, at my suggestion, he got a job in a large store and rose to a position of responsibility. That was work that suited his temperament. Nobody can do very well anything that he dislikes. On the other hand, nothing can keep anybody from doing the thing that he wants to, if he wants it badly enough. Go ahead and do the thing. If there is no customary way, find one. If the customary way fails you, invent a new way."

## HUGHES AND TOKIO ENVOY CONFER ON DISARMING PARLEY.

Extensive informal discussions as to the direction and scope of the disarmament conference already have taken place between Charles Evans Hughes, Secretary of State, and Baron Shidehara, Japanese Ambassador. What was outlined at those pourparlers has been communicated to the representatives of the allied and associated Powers for their information. The proceedings so far were characterized as distinct forward steps.

The thought which the United States Government has sought to drive home in those discussions is that the conference does not intend to "put over" anything prejudicial to the interests of any of the participants. Japan has been told and shown that the right of national sovereignty will protect her sufficiently and that there is no desire on the part of the United States to take up questions that lack international bearing or character.

Officials have every reason to believe now, it is understood, that Japan will accept on that basis and indicate a willingness to enter into discussion of Pacific and Far-Eastern problems. If that comes to pass the United States will at once get down to work on the preliminary arrangements for the conference, fix the date, method and size of representation and other details which are necessary to bring the conference into being.

No objections will be interposed then to an exchange of ideas as to the subjects to be discussed. The United States has no desire to be reticent. It merely wishes to bring to an end preliminary discussions which do not bring nearer the goal in view.

English-American English—is to be the official language of the Washington conference on disarmament and Far Eastern questions. There seems to be no intention to conduct negotiations bi-lingually (in English and French) as was done at Paris and Versailles. Perhaps Secretary Hughes will take occasion to point out this pertinent fact when the President's formal invitations to the conference are issued. Knowledge of such a decision undoubtedly will influence the choice of delegates from the non-English-speaking countries—France, Italy, Japan and China. The Japanese and Chinese have many statesmen, mostly of American education, who speak English fluently, but in France and Italy statesmen who command our language are exceptional. M. Viviani, for example, cannot speak English, nor can Signor Orlando, former Premier of Italy.

## URGES NEW METHOD TO MIX BORDEAUX

A convenient modification of the safe way to make Bordeaux Mixtures, assuring the most effective spray solution, has been tried and found good by the New Hampshire and Arkansas experiment stations, and is now recommended by the department of Botany, the Ohio State University.

The old method, long followed by careful and progressive growers, was to make the standard 5-5-50 Bordeaux by mixing five pounds of copper sulphate with 25 gallons of water in one container; by mixing five pounds of burned lime with another 25 gallons of water in another container, and by pouring the two dilutions together.

The modified method said to be

just as safe and more convenient is described as follows by E. E. Clayton, specialist in plant pathology for the state extension service.

"Suppose you have a 50 gallon tank to fill with 5-5-50 Bordeaux. Place in this tank five gallons of the stock copper sulphate solution, equivalent to five pounds of crystals, and then add 35 gallons of water.

"Next, take five gallons of the stock lime, equivalent to five pounds of stone lime, dilute it with five gallons of the stock copper sulphate solution, equivalent to five pounds of crystals, and then add 35 gallons of water.

"Next, take five gallons of the stock lime, equivalent to five pounds of stone lime, dilute it with five gallons of water, pour it into the copper sulphate solution, and stir the two together. Remember always to dilute the copper sulphate before mixing. Never add concentrated copper sulphate either to weak or strong lime solution."

## A NICE LITTLE SUMMER OUTING FOR CONGRESS

## 1901--Twenty Years Ago--1921

A big excursion of 12 or 15 cars passed through Xenia yesterday, the train being a special carrying the brewers from Columbus to Cincinnati.

M. Bert Hardt, for several years a clerk at the store of Jobe Brothers and Company has tendered his resignation to that firm and has gone to Chicago, where he has taken a position with the Marshal Field Wholesale House.

A new brick firm of Long, Lewis & Mallow, that has just opened a brick and tile factory on Henry Long's place near New Jasper, delivered quite a supply

to the constructors of the court house. The bricks are of a fine quality and resemble pressed brick, and we predict great success to the firm.

The wheat crop in Greene county is proving somewhat disappointing to the farmers, the yield not coming up to expectations, and the quality not being as good as hoped for. The terrific hot weather had the effect of making the wheat ripen very early and caused the grain to shrivel.

Mr. J. T. McVay, of Hutchinson—Gibney's is taking his vacation and will go to Winona Lake and from there will visit the scenes of his early life.

## WHO PAYS FOR ADVERTISING

### Why Not?

A House Anywhere  
Ask Any Banker  
Soldier From Maine  
Your Neighbor Pays

### AN EDITORIAL ON ADVERTISING

Advertising is education. It is the text book of buying. Wise expenditure is the basis of prosperity of the average family. Your banker will tell you that whatever your earnings may be, your individual problem is not solely the increasing of that earning power. Wise investment of what you have is fully as important.

Who pays for advertising? You pay—your neighbor pays—we all pay. Why not? Do we not pay millions as citizens of the United States for the primary grammar and high school education which fits us to go out in the world and earn a living? Advertising is merely the textbook of wise spending. It teaches us to spend wisely what we earn.

Through all the ages education has been the hard-won vantage of the masses. The right of the world's sum of information has been won by the average human being only at huge cost in time, in privation and in actual money. And yet the millions which we, as a nation, spend for all our free (?) public schools, plus the millions privately spent for college and university education, accomplish no more for your good than the pennies you spend for newspapers which purchase the investment-education offered you by modern advertising.

The man or woman who is a consistent, careful reader of newspaper advertising has access to the most valuable education ever offered at any price anywhere. It is the teaching of common sense; of better standards of living; of higher standards of health; of wiser expenditure of money. All the knowledge of the world is valueless without common sense. And if you learn the lesson taught by modern advertising, you will learn common sense in the investment of whatever sums of money you earn!

There is the freest school in the world and the cheapest. The subject taught is the most vital to your happiness. The vitality of their message is proven in the fact that advertising has made this the cleanest nation on earth as well as the best clad and the best fed.

build anywhere a house constructed of standard, durable material made available to you by advertising.

This never-ending influence of advertising has moulded your life in a thousand ways. It is the force which made it possible for the soldier from Maine to stand shoulder-to-shoulder with his brother from California, think the same thoughts, react in the same way to the same order. Unification of the people of the United States—unification of their daily habits accomplished by advertising—was a potent factor in settling the standard which enabled us to present a united front during the late war.

Advertising is a force equally potent in making your daily life happy and efficient.

## OHIO HAS LEADING CORN TESTING GROUP

Two hundred and thirty-four cows with an average annual production of 338 pounds of butter fat, a record just turned in by the Bamesville Cow Testing Association, Belmont County, at the end of its seventh year, wins for this group of dairy farmers the state championship in respect to production and gives it the highest record of any active Jersey association in the United States.

The association is the oldest one now active in Ohio. Following is its record in pounds of butter fat produced to the cow throughout its seven years of history: 1914, 269.9 lbs.; 1915, 283.4 lbs.; 1916, 308.5 lbs.; 1918, 345. lbs.; 1919, 339.4 lbs.; 1920, 338.2 lbs.

### SWEET CORN SHORT

Indications are that the early sweet corn crop will be a short one on account of the dry, hot weather of the past few weeks.

The general corn crop is now at a stage when only a genuine soaking rain can cause it to mature properly.

## VICTORIAN DAYS

The age Victorian, methinks, produced some able writing ginks, although they're jeered at now; the modern wielders of the pen insist that prudery was then behind each bulging brow. The authors of that bygone time wrote tales of love, intrigue and crime, in palace and in hut; and all their tales were good and clean, they wrote up life, both high and mean, but left out all the smut. The beastliness of life, gadzooks! Why write it up in mighty books, in language coarse and curt? Why overlook the blooming rose to show that soil from which it grows is largely made of dirt? Our later scribes resolved to strike against convention and the like, and show life as it is; and when I read their stirring tales of gas the sewer pipe exhales, I weep and cry "Gee whiz!" They show up every morbid phase of life as lived these sordid days in slum and den and styles; and if the tales they tell are true, and life is such a beastly stew, the world had better die. The pruders: Victorian were wise; they wrote of mirth and shining skies, clean dames and decent men; they knew the world had filth and vice but figured that it wasn't nice with such to soil the pen.

## SLENDAR LINES

The woman who allows herself to become stout, loses her figure. Youth and slenderness are so closely associated that even the young girl who is stout is spoken of as mature and is apt to be considered old long before her time.

You must not only be elastic to be youthful, you must also be slim. Elasticity may be a matter of exercise; slimmness is a matter of exercise and diet. You have a golden opportunity now to improve your figure. The whole outdoor world tempts you! Get out into it as much as you can.

If possible, play tennis, this keeps you alert, makes you spring suddenly into action, brings your eye and hand and arm into play, makes you run suddenly and swiftly, sends your blood racing and makes you fill your lungs with air. A hard fought game of tennis will make you exercise almost every muscle in your body. In my opinion, it is only excelled by swimming as a beneficial exercise.

Tennis is not the only outdoor game. Even if you live in the heart of the city and cannot get any athletic exercise, you can still board a trolley, ride to the city limits, and walk with long swinging steps far out into the picturesque greenness of the country. This is not quite so good for you because it brings into play only the lower part of the body, but it makes the skin active, causes you to breathe more deeply, and gives you country air to breathe, too.

Even this may be out of the reach of some women, but every woman can take a systematic course of physical exercise every day in her room. She should do, so to keep her figure trim.

Lassie.—Send an addressed, stamped envelope for directions on reduction. Never use camphor on the bust.

Reaper.—As it a patented article, I know nothing about it.

T. B.—Bleach the hair on the hands by using peroxide of hydrogen. The knuckles will not be abnormal if you fatten the hands by massaging into them a good cream. The warts on the hands can be strangled, so they drop off, if you tie a piece of white silk very tightly around the base of each wart.

A. B. D.—Cucumber juice will bleach the skin. A tablespoonful of olive oil, taken three times each day, will help you gain weight; it is pleasant to take it in the same amount of grape juice. Your scalp needs a tonic; send an addressed, stamped envelope for a formula for one.

Troubled.—Use cold water and light friction with a coarse towel each day until the busts have regained their firmness. Try a corset that will support the bust without a brassier.

## ICE FAMINE HITS SMALLER CITIES

Celina, July 22.—Celina and several other cities in this section are passing through the ordeal of an ice famine. Celina has no plant for the manufacture of ice and like other cities in that vicinity has been entirely dependent upon outside supplies.

The continued hot weather has caused an unusually heavy demand to be made upon ice concerns and if the weather continues it is entirely probable that the supply everywhere will be curtailed to some extent.

# MAMMOTH SPRING IN PIKE COUNTY IS "LOST" STREAM

(Washington C. H. Herald)  
Located one mile from Latham, in Pike county, just 39 miles from this city, is one of the most remarkable, and probably the largest spring in Ohio—the Kincaid spring—which pours fourth in such volume that a ten foot creek is thus abruptly started.  
The spring is walled with cement 20 feet long and 6 feet wide, the lower side of the big tank forming a spill-way and the water pours over the entire 20 feet, forming a miniature waterfall some three feet in height. It is "cold as ice" and of excellent drinking quality.

It is claimed that the spring is really the reappearance of a lost stream, and that the stream sinks in to the limestone bed two or three miles distant, with the result that a large subterranean channel passes under a tremendous hill and reappears in the form of a spring. It is claimed that if a small piece of wood is dropped into the sink holes where the stream disappears, it will be found with in 24 hours, floating on the surface of the big stream.

To reach the spring motorists may go over the following route: Go to Greenfield, take Cliff Run road, coming out near Rocky Fork; then toward Bainbridge, turning off Cynthia road southward; go three miles to point where cemetery is on right with road leading to left; this is Latham road and spring is about seven miles distant, with road fair and one large hill with fairly easy grades. Leaving Kincaid spring a delightful drive is to continue to Picketon by way of Idaho and Jasper, 16 miles, or turn first road to right after leaving springs and come out near sinking springs, 8 miles distant. Scenery among the best in southern Ohio.

## Styles BY LENORE

One of the most noticeable features of smart juvenile fashions is their extreme brevity. Never were children so briefly clothed. Skirts are cut well above the knees and legs remain uncovered. Also there is a marked scarcity of the white frock. For play frocks, the colorful English prints and ginghams, especially red and white, are full of the spirit and joyous abandon of babyhood.

To fill out the long hot summer of hard play are these two practical frocks for the wee miss who still wears socks—that is, when she wears anything at all. These two designs may be copied in any of the materials preferred for children. The pretty slip at the left (1) is featured at the shop where I found it in pink and bright blue chambray with white mercerized thread embroidery.

broderly; or a border of flowered chintz may be substituted. And no wee lady who wears a suspender frock need ever fear she is commonplace. This one (2) is made of red and white striped flannel. The blouse is of sheer batiste.

Many of the little frocks are exhibited with tiny breeches, made of the same material as the dress. These are usually attached to, or made in one with an underblouse of muslin.

PATTERN NO. 214

Patterns for the above models (No. 214; styles 1 and 2) can be obtained in ages 4, 6, 8, 10 or 12, by sending to Lenore, 8 West 40th Street, New York City, your name and address, number of pattern, style number, age required and 30 cents (15 cents apiece) in postage stamps. Be sure to keep this newspaper clipping of the sketches and description of the garments to use as a working model when the patterns (or pattern) reach you—which will be within two weeks. The Editor.

# GOLF AND HOW TO PLAY IT

By Chas. Chick Evans Jr.

## DRIVING

I have learned through years of trial that in driving I can do ever so much better if I straighten the left leg and let the arms go well through at the finish. In this connection I want to caution the reader to beware of the stiff-arm follow through. As in the case of the midiron it is much the most picturesque way of posing the club at the finish but not the most successful in bringing results. I always try for a bent position of the left arm when I follow through. That is, I

try to keep the left elbow close to my side when the blow is finished. This serves another very good purpose; it brings the knuckles of the right hand upwards at the forward end of the stroke. This is one of my best little ideas for curing a slice. With this thought in mind my wrists and club head turn over almost automatically. The professional tells you to turn over your wrists and clubhead just as you hit the ball, thereby avoiding a slice. I have tried to do this, but practised as I am in the use of a golf club, I have found it impossible. The stiff left leg and the bent follow through solve the question for me.

This morning I felt stronger than usual. That feeling comes to all of us at times, but in golf we must be careful not to let it result in muscle hardening. At the time of your greatest strength relaxation is most imperative.

I must repeat the necessity of allowing the left knee to go back to a stiff position on the follow through. You can let the clubhead follow out on the imaginary line, but the hinged position of the knee accentuates the throw of the clubhead through the ball. The stiff-arm follow through is only good for run-ups. Keep your eye down and don't snap your follow through too quickly.

In putting today I tried out two little things small indeed but well worth remembering. The first was the locating of a spot on the very butt of the ball and aiming to hit that. It was effective. The other thing was to follow through, with a low putter head, along the imaginary line instead of putting up.

Yesterday my masbie had seemed particularly heavy and uncomfortable, but with an exercise of will power I practised straight through my schedule. Today the moment I grasped my masbie it fitted right into my hands; it felt good and comfortable and balanced and I knew from experience that this was the result of careful, intelligent practice the day before. A player learns to love his clubs because they "feel" good to him, and if practice does nothing else it establishes this feeling of companionship—it enables a player to learn the true balances of his clubs and this is extremely important knowledge to acquire. For this reason, I endeavor always to impress the fact upon myself that if a club happens to feel out of place on one day's practice it will, if perseveringly used, feel fine the next day.

## SHOW GOOD GAINS FROM WARM LUNCHES

Warm school lunches, combined with simple lessons on foods, may make badly underweight children gain at three times the normal rate. Such is the finding of a practical experiment conducted by the home demonstration department of the Ohio State University in co-operation with nine rural schools in Franklin, Lake and Erie counties during the past school year. Returns on the test have just been compiled.

In these schools, 176 school children were given warm lunches principally milk soups, and were weighed bi-weekly. Initial weighings showed 122 somewhat below weight, and 31, or 18 percent of the total number more than 10 per cent below the mark. It was these 31 badly underweight youngsters who received special attention.

The normal expected gain for these 31 children during the two months period of the test would have been 60 ounces. Actually, they gained 1,504 ounces. Worked out in pounds, and in terms of the average child, the figures show that underweight youngsters who, by natural process of growth, would have been expected to gain about one pound actually put on three.

Of 176 children, the entire number in the test, 147 made gains.

## INFANT DIES NINE DAYS AFTER BIRTH

Willford Dar, the nine-day old child of Mr. and Mrs. Gerold Edgingfield, of Home Avenue, died at the parents' home, Thursday morning at 10 o'clock, death being caused by erysipelas.

Besides the parents, the child is survived by several brothers and sisters. Funeral services were held Friday morning at nine o'clock standard time. Burial was made at Woodland cemetery.

## SELL BARRACKS AT CAMP SHERMAN

Camp Sherman, July 22.—A big crowd of buyers from all over the state attended the sale of barrack buildings held at Camp Sherman, Tuesday. The first batch of 51 barracks put up for sale was purchased by the Cleveland Wrecking company for \$400 each. Other buildings were sold separately.

## Baby's Sore Chafed Skin

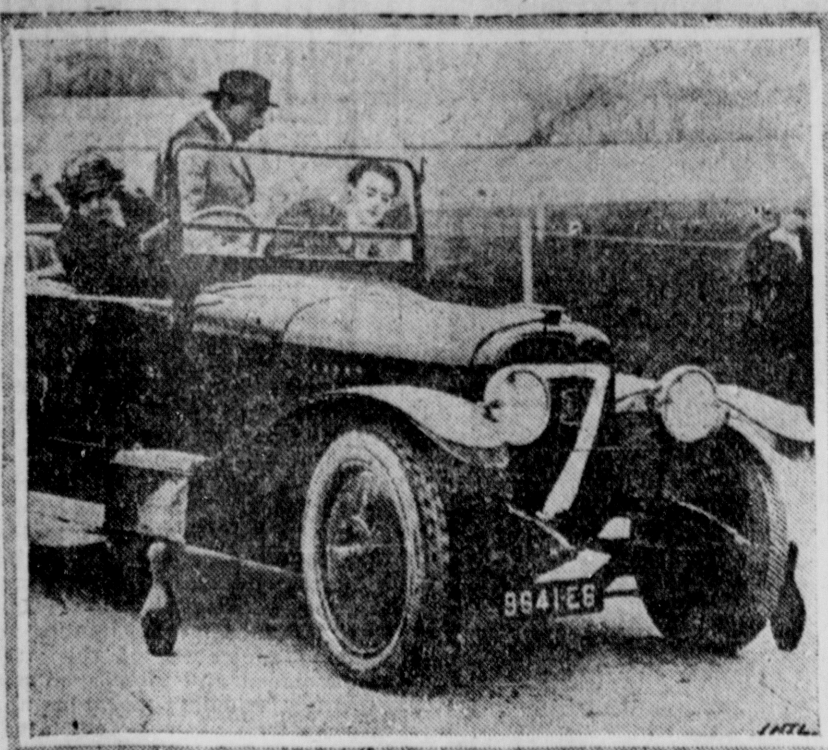

The Cause of Untold Misery Nurse Tells How to Avoid It

Philadelphia, Pa.—"Sykes Comfort Powder has been used on this little boy with great success in keeping his skin free from chafing, scalding, rashes and soreness, which is the cause of so much misery among children. In my eleven years work as a nurse I have never found anything to equal Sykes Comfort Powder for this purpose."—Lottie E. Sloper, Nurse, 4011 Pine St., Philadelphia, Pa.

The reason Sykes Comfort Powder is so successful in healing and preventing chafing, scalding, rashes and skin irritations is because it contains six healing, antiseptic ingredients not found in ordinary talcums. Physicians and nurses call it "a healing wonder."

## NEW SPORT IN PARIS, FRANCE

One of the latest and most interesting sports in gay old Paris is done on an automobile, with a woman at the wheel, to show how accurately she drives. The idea is to get the automobile through the two pins as shown

In the photo, without throwing either of the pins down after making all sorts of twists and turns. The pins are separated by just enough space for an automobile to drive through straight.

## COAL MINER RETURNED TO STEADY WORK AGAIN

No More Layoffs for Otto Deitman—Nerv-Worth Restored Health.

"Some days I could not work all day because of the misery I was in from gas on my stomach and belching, and I couldn't eat anything at all. Sleep at night was unknown to me. I have taken a bottle of Nerv-Worth and now I am able to work steady, and I can certainly recommend Nerv-Worth for what it has done for me." Thus wrote Mr. Deitman who resides in the West End, Punxsutawney, Pa. The above statement tells its own story. If you suffer from nervous or stomach disorders, a general run-down condition, or their attending ills, give Nerv-Worth a trial. Remember, if your first trial bottle is not satisfactory, your druggist is authorized to refund your money. Sold by leading druggists. Sold at \$1.00 per bottle and recommended by Sayre & Hemphill.

what it has done for me." Thus wrote Mr. Deitman who resides in the West End, Punxsutawney, Pa. The above statement tells its own story. ## JUDGE LIVE STOCK ON GREENE COUNTY FARMS ON FRIDAY

Students in vocational agriculture at Harmony township high school, at Plattsburg, Clark county, visited Greene County on live stock judging trip, Friday.

The trip took in farms south of Springfield in Clark county and in the northern part of Greene county, the boys judging one lot of horses, three lot of hogs, one lot of dairy cattle and two lots of beef cattle.

The judging trip started at Elder & Tuttle farm where the boys judged a lot of Belgian horses. At the O. O. Corry and son farm they studied Duroc Jerseys and at Bell Brothers on the old Clifton road they passed judgment on some Hampshire hogs. All of this work was done Friday morning.

Friday afternoon the boys started at the farm of Ralph Howell and Son, where they had lunch and judged some Poland Chinas, the last herd of hogs to be judged. They then stopped at Whitehall, Yellow Springs, where they judged a number of Jersey cows, and saw one animal that bid fair to lead the state in butter fat production this year. At M. R. Grinnell's south of Yellow Springs, the boys judged a herd of Herefords and they stopped last at Walter Fergusons where they judged a lot of Aberdeen Angus. Owners of the different stock helped the boys by telling them something of the past and present tendencies of the stock. The boys were to return to Plattsburg at 5:30 o'clock.

## DECISION RENDERED BY LOCAL JUDGE UPHELD BY COURT

A decision handed down by Judge M. J. Hartley, during the period he occupied the Common Pleas Court bench here last winter, was upheld by the Court of Appeals in Dayton, Thursday.

The case regarded title to the entrance of the Victory Theater, Dayton, Judge Hartley's decision favoring the Schwind Realty Company and the Music Hall Company. The case was appealed from common pleas court by William H. Young, who claimed an interest in the property.

During the time Judge Hartley occupied the bench here, he was assigned to hear the case in Dayton, and he denied Young's interest and found for the realty and music hall companies, as perpetual leaseholder and lessor, respectively, which decision the appellate judges affirmed. The Schwind interests started the suit to quiet their title.

## KELLY'S TEAM WINS FROM PIQUA PLAYERS

J. E. Kelley, president of the Xenia Country Club, and member of the Dayton Country Club, helped that club defeat the Piqua Golf club players at Piqua Thursday, 30 to 10.

V. K. Hilton, Dayton city champion, had a tough time with his Piqua opponent, losing the in-nine and only winning two points because of it Mr. Kelly won three points and aided his team to victory.

The Dayton Club players were entertained at lunch at the Piqua club. The Piqua golfers will come to Dayton August 11 for a return match.

### SEARCH FOR BODY.

Cleveland, O., July 22.—Search was made by life guards for the body of William Egeland, aged 10, who was caught in an under tow at Edgewater Park and drowned.

## VIRGINIANS HOLD REUNION AUGUST 14

The annual reunion of Virginians will be held this year as formerly. The reunion will be staged at Kill Kare Park Sunday, August 14. All are invited to bring well filled baskets and join in the celebration. Invitations have been issued, signed by Floyd W. Camden, secretary, and J. W. Camden, president of the reunion organization.

## CHARGE RATES ON FREIGHT INCREASED BY 425 PER CENT

Columbus, July 22.—Attacks upon the freight rates charged in Ohio on coal hauled a distance of 30 miles or less were made late yesterday in suits filed before the public utilities commission. In the petition it was recited that the increases charged in some were as high as 425 per cent. The complainant, the New York Coal Company, brought the action against the Hocking Valley railroad company, on which line its mines are located.

The alleged excessive rates are general in application, the petition recites. It is pointed out that to ship a ton of coal one mile costs 84 cents, while the charge for shipping a ton of coal from Nelsonville to Toledo, a distance of 200 miles is only \$2.10.

## PROPELLER LOST BY PLANE IN AIR

Dayton, July 22.—Flying at a 26,000 feet altitude yesterday evening, Lieut. J. A. Macready, McCook field, lost his propeller and now the post is advertising for its return. Experts want to see why it flew off and then "finder will be keeper," they say. The lieutenant and Observer Roy Langham were testing a Moss supercharger, when the propeller, made of canvas and bakelite, especially for high travel, crashed off. The ship was about ten miles west of Dayton and succeeded in landing without trouble.

## BELIEVE MURDERER OF GIRL DEGENERATE

Niles, O., July 22.—Police are endeavoring to solve the brutal assault upon and murder of Mollie Verbias, 14, who was found choked to death in a thicket near here, were working on the theory today that a moral pervert was responsible and that the same slayer was responsible for the murderous assault upon Clara B. Lennox, 14, of New Castle Pa. The Lennox girl was seized and dragged into thicket while picking berries.

Conditions surrounding the slaying of the Verbias girl resembled those in the murder of two teachers at Parma, Ohio, several months ago. So far no clew has been discovered as to the slayer's identity.

### REDUCE DISCOUNT.

London July 22.—The Bank of England reduced its minimum rate of discount from 6 per cent to 5½ per cent. The 6 per cent rate had been in effect since June 23.

## Played Detective on the Kaber Case.

Mrs. Esther Berman who gathered much of the information that resulted in the arrest of Mrs. Eva Catherine Kaber, charged with the murder of her husband, Daniel C. Kaber, wealthy publisher of Lakewood, Ohio. Mrs. Berman became friendly with Mrs. Kaber following the crime, having been engaged by Moses Kaber, father of the slain man, to investigate the strange case.

### TO FILE NEW SUITS.

Washington, July 22.—Investigations into the activities of trade associations in restraint of trade will result in the filing of new suits by the government in a short time. Attorney General Daugherty announced today. The attorney general refused to state what industries were involved in the investigation.

## FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

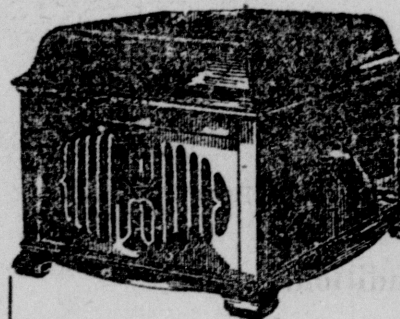

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength Othine as this strength is sold under guarantee of money back if it fails to remove freckles. adv

## LOOK YOUNGER

Care-worn, nerve-exhausted women need Bitro-Phosphate, a pure organic phosphate dispensed by Sayre & Hemphill that New York and Paris physicians prescribe to increase weight and strength and to revive youthful looks and feelings.

## Health Talks

By John B. Huber, AM.M.D.

### THE GENERAL TREATMENT OF POISONS

1. Send for a doctor.
2. Empty the stomach by the use of emetics; tickle the throat to produce vomiting. Mustard water, a tablespoonful to a tumblerful of tepid water; or saltwater, a tablespoonful to a tumblerful of tepid water; or two tablespoonful of syrup of Ipecac. Zinc Sulphate, 2 grains to half a glass of tepid water; copper sulphate, 10 grains to a quarter tumblerful of warmwater. Emetics are valueless when taken after substances which produce anesthesia of the throat and stomach and after such powerful drugs as opium morphine and cocaine, strong acids and alkalies, have had time to act. The doctor will empty the stomach by the use of the stomach tube.
3. Give antidotes for poisons—of which more tomorrow.
- 4.—Give water, milk or any

harmless fluid, which dilute and to the stomach against corrosive or of burning poison.

5. Give demulcents, such as white of eggs, boiled starch, mucilage, boiled slippery elm bark, which furnish a protective coating to the stomach against corrosive or irritant poisons.

6. Stimulants increase the heat power so as to overcome the weakness caused by the poison. We give aromatic spirits of ammonia, a tablespoonful in a glass of water, in frequent tumblerful doses; coffee in strong solution; or ether inhaled or in cold water.

7. External heat where there is depression, by warm blankets and hot water bottles (enveloped in towels, so as not to burn the skin.)

8. Apply friction so as to restore depressed condition. Rub toward the heart. Keep patient flat of back and avoid sudden raising of the head.

# ADOPT RULES FOR QUOIT TOURNAMENTS

Rules that will govern quoit club contests in Southern Ohio were finally decided upon at a committee meeting held in this city, Thursday night.

The committee consisting of M. J. Bebb, of the local club, N. O. Anderson, of Tippecanoe City and F. G. Burdette, of Dayton, was appointed at the quoit club convention held recently at the National Cash Register Company plant in Dayton, to draw up such rules. The rules finally decided upon will govern all future contests in this section.

In a contest on the local grounds Thursday night, the team representing the Xenia Club, defeated the Tippecanoe City Club eight games to four.

## COURT NEWS

Oppointed as Administratrix

Viola M. Haines was appointed administratrix of the estate of Alfred Haines, late of Caesar Creek township, by Probate Judge J. Carl Marshall Thursday. She furnished \$1,200 bond, Thomas Faulkner, Luther Hartsock and Charles Lewis were appointed appraisers.

**Suspended Sentence is Given**  
E. A. Farwood, charged with non-support of his minor child was sentenced to six months in the Work House and fined \$10 and costs by Judge Marshall, the fine and sentence being suspended however on agreement of Farwood to pay \$5 a week into the court for the support of the child.

**Child Permanently Committed**  
Lester Hosier, committed to the custody of the Ohio Board of Administration, at its Bureau of Juvenile Research at the Boy's Industrial School, Lancaster, by Judge Marshall, July 19, 1920 was permanently committed to the institution Thursday, the original commitment being temporary.

**Five Suits Against Same Defendant**  
Five separate suits, naming the same defendants, and asking judgment aggregating \$3,610.11, were filed with Clerk of Courts C. S. Johnson, in Common Pleas Court here, Thursday.

All of the suits name as defendants, N. Ebner, and Oscar Werber, doing business as the Xenia Fertilizer Company, and all claim judgments on account for value received. Four of the suits are by butchers and meat markets, claiming that the defendants owe them for tallow and bones. The other by a groceryman, is labelled merchandise.

The law firm of Miller and Finney filed two of the suits, for C. E. Fisher E. A. Fisher and Fred Fisher, doing business as isher Bros., and asking a judgment of \$1,113.83 and the other for Charles Buck and Edwin Buck, doing business as Buck & Son, and asking a judgment of \$1,043.53. Attorney F. L. Johnson, brought two of the suits, one for F. W. Sanger, who seeks judgment in the sum of \$461.26 and the other for Cloisley Anderson, who claims an account of \$871.02, on which a credit of \$36.16 has been applied leaving 774.85 yet due. The last suit was filed by Judge Marcus Shoup for H. E. Schmidt doing business as H. E. Schmidt & Co, the plaintiff claiming an account of \$249.20 on which a credit of \$42.56 has been applied, leaving a total of \$216.64 asked for in the petition. Each suit asks for interest of six per cent from the dates of purchase.

## VITAMINE IN YEAST PUT UP IN TABLETS NOW

Easier To Take Than Yeast—Results Quicker and Much Less Bother

## CHEMISTS CONCENTRATE DOSE INTO TINY TABLET

Thousands are turning from ordinary yeast to the new and better way. Druggists, doctors and chemists praise new, highly concentrated Phos-Pho-Vitamine Tablets, which contain a proper dose of Water Soluble B Vitamin obtained from yeast, with "Pat Soluble A Vitamin," etc. These small tablets are swallowed with a mouthful of water after meals. Easier to take results quicker, more economical and better for you. The tablets do not upset the stomach and keep in definitely. Write for free pamphlet to Irving Laboratory, Wheeling, W. Va. or ask for Phos-Pho-Vitamine Tablets at your druggists.

## Efficient Housekeeping

What Can Be Done With Painted Floors?

"I would so love to get rid of carpets and have rugs in my living room" write so many readers of this column, "but the floors of my house are only spruce, and they wouldn't look very well painted, would they?"

To such letters, I always reply, "Of course they'll look well painted!" And I then proceed to give directions for painting and finishing them. I believe that many of my readers who have not thus written to me for aid, may nevertheless be glad to have the following suggestions regarding their old floors.

The beautiful part about a painted floor is that almost any kind of wood at all may lie beneath the paint. Soft woods are close-grained, and therefore do not require a "filler" as some of the open-grained hardwoods do so they are not as difficult to finish as the hardwood floors.

After you remove the carpet from your floor, proceed as follows: first apply a coat of "ground color" paint to all holes and cracks; let this paint dry, then apply a regular crack filler. There is a special crack filler now made for filling cracks, crevices and knot-holes, and this is much more satisfactory than putty would be if used for the same purpose, for the

three men in an automobile with a number of berry crates were really transporting 32 quarts of "bottled in bond" whiskey which was to be sold at some point presumably around Bainbridge.

The men are said to have stopped at the home of a friend and "set 'em up" to prove that they had genuine "bottled in bond" in the bottles.

crack filler will not shrink and dry out. Next apply a coat of ground color paint to the entire floor, let it dry thoroughly, and apply a coat or two of varnish (good spar varnish will wear best). If one does not care for a shiny varnished surface, she may rub down the high polish, 48 hours after it has been put on with powdered pumice and water; then, when dry apply linseed oil and turpentine in equal quantities, mixed.

Many housekeepers of my acquaintance, who have attempted to do over their old floors in this way, have tried "graining" them. This gives an artificial grain to the wood and is done as follows: Buy a can of graining paint and apply it directly over the ground color paint while the ground-color is still wet; then proceed to grain at once, with a graining tool, to suit your fancy. Of course only a small space can be grained at once, and for this reason only a small portion at a time should be painted with the graining paint. After the graining is finished the entire floor is varnished when dry.

A pretty lustre is given a varnished floor by mixing oil and turpentine in equal proportions and applying this with a cloth, then rubbing down with a dry cloth just before it is dry; this rubbing down while the oil and turpentine is still wet, removes the scum from the oil, and if it is not done the result will be a dirty, dull floor. Floors treated in this way are not as dangerous to walk upon (elderly people and children particularly will be benefited) as a waxed floor.

A floor that is merely painted and has no coat of varnish over the paint will not wear as well as though the varnish had been applied, the paint will crack and peel in time, and experience has taught housekeepers that only in bedrooms, where there is not much traffic a painted floor surface is in the least satisfactory.

Tomorrow—A Chicken Dinner for Sunday.

## The Revolt of Vera Sanderson

By JANE PHELPS.

### Keith VISITS VERA

Chapter 99

The days that followed were hectic ones. I could set myself at nothing. I took long walks hoping to tire myself so that I could sleep. I did more household work than usual. I read only to throw my book aside, and try to sew; I sewed only to fling my work down and try to read. My mind was in a hopelessly chaotic state.

And Mrs. Aldrich let me alone. I wonder if you, who read my story, know what that meant to me? No questions, no suggestions, just a quiet, calm looking after me, without fuss or talk, an errand to give me a chance to get out, a special dish to tempt my appetite. If only there had been more like her in the world! During that week of stress and waiting I made up my mind to try to be as near like her as I could. Upon my return from one of my long walks I found a telegram on my desk. I opened it with trembling fingers. It was from Keith.

"Will be with you the 5th." Involuntarily I glanced at the calendar. It was the 4th—only 24 hours!

All suddenly I became frightened. Suppose I should find I was not as strong to resist him as I had thought myself? Suppose he begged me to return and live with Margaret, promising me relief in other ways? Would I be able to tell him I had not changed my mind; that what I had demanded must be mine if ever I was again his wife?

That was the longest day, the longest night of my life.

Of course Mrs. Aldrich knew he was coming. I was in my room when the depot wagon stopped at the gate. I pulled myself together and went down to meet him.

Mrs. Aldrich had answered his ring, and he stood before her, hat in hand when I reached the door. Was it Keith? He looked thin and from one hysterical fit into another

worn, and there were streaks of gray over his temples that had not been there when I left.

"Vera!" Will you come in Keith I asked, as Mrs. Aldrich unaccountably disappeared.

He followed me into the little parlor. I raised the shades, and motioned him to a chair. He held out his arms.

In a moment I was folded to his breast, his kisses on my hair, words of endearment falling upon my ears. For a moment I yielded myself to the joy of it. Then I wrenched myself away.

"Sit down, Keith," I said stiltedly, my voice unsteady.

Without a word he let me go, then seated himself. "Vera, is your decision irrevocable? Will you never return to me if we live with Margaret—poor girl," he added.

"It is! I would rather die right here and now than go back to the hell I lived in as your wife!"

"Was it as bad as that, Vera?" "Pardon me, Keith, I didn't mean to use that word. Yet why not? It was hell from the beginning to the end. Even my baby was never quite my own. Margaret interfered."

"Mother left this for you." He gave me a package.

"She was always sweet and kind." I had laid the package on the table. I would open it when alone. Perhaps she had urged me to go back to Keith, and it would make it still harder to refuse, and God knew it was going to be hard enough with all the love for him welling in my heart.

"Vera, you must come back to me! I can't live without you. Keith's voice was husky."

"Not unless you give me a home and a husband, Keith. I never have had either."

"I talked with Margaret, Vera. I thought she would die. She went. Was it Keith? He looked thin and from one hysterical fit into another

She will not release me from my promise never to leave her for another home. If I go I shall have to break that promise."

"You also promised to love and cherish me, to cling to me above all others, and—"

"I know," he interrupted. Then—"If I can make some sort of an arrangement to see Margaret, to be with her at stated times, will you come?"

"If my home is ready for me. I am assured that I, my reasonable wishes come first with you. Otherwise—I can't Keith."

"You have ceased to love me, Vera?"

"I have ceased to be willing to be made miserably unhappy because of my love, ceased to be willing to occupy second place in your affections and your home. I love you—but love cannot endure what I endured and still last."

"I will talk with Margaret. May I come back a week from today?" Then, "You have grown older, Vera. I wonder—"

"So have you."

Tomorrow—Vera Left Hopeful.
